To the wonderful team at Donna Ockenden Ltd,

I wanted to reach out to thank you personally for your generous donation of £100.00. This kind gift will make such a difference to our work; which is only possible through the commitment of our community of supporters.

During these turbulent times, when you must have so many questions and concerns of your own, for you to think of us and choose to support our work with a donation is a phenomenal testament to the drive that our community shares to effect change, no matter what.

As you may already know, brain tumours are the biggest cancer killer of children and adults under 40. In spite of this, research into brain tumours receives less than 3% of all cancer research funding. This is insufficient to bring about the changes that we believe are so desperately needed.

The Brain Tumour Charity is at the forefront of the fight to defeat brain tumours, making a difference every day to the lives of people with a brain tumour and their families. We fund pioneering research, raise awareness and provide essential support for those affected to improve quality of life. We rely 100% on voluntary donations so every penny of your kind donation really does make a difference.

Our funding goes through a strict peer review process, ensuring we only invest your funds in world-class research. In our most recent grant round, we committed £6.7m to seven brand new pioneering projects, which form part of our five-year strategy with the goals to double survival and halve the harm brain tumours have on quality of life. We have to keep up the pace of research by continuing to raise vital funds and are extremely grateful to you for being a part of this.

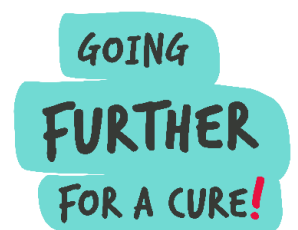

As a reminder, if you or someone you know is need of support or information, our team is here to help so please call us on: **0808 800 0004**, or email support@thebraintumourcharity.org.

Thank you, once again, for bringing us closer to a future with a cure. Together, we will defeat brain tumours.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Annie Edwards".
